TITLE	Fall 1994 Minnesota Post-Secondary Education Enrollment Survey.
INSTITUTION	Minnesota Higher Education Coordinating Board, St. Paul.
PUB DATE	Jun 95
NOTE	533p.
PUB TYPE	Statistical Data (110)
EDRS PRICE	MF02/PC22 Plus Postage.
DESCRIPTORS	College Freshmen; Community Colleges; *Enrollment; Enrollment Rate; Enrollment Trends; *Higher Education; High School Graduates; In State Students; Place of Residence; Private Colleges; Proprietary Schools; Sex Differences; State Colleges; State Universities; Statistical Data; Technology Education
IDENTIFIERS	*Minnesota

ABSTRACT

This report publishes enrollment data for Minnesota post-secondary education institutions in 1994 including headcount enrollments, institutional enrollments, full-year equivalent enrollments, enrollment by residency, and participation. Part 1 contains headcount enrollments in 5-year summaries for each post-secondary institution in the state. Summarized enrollments include total headcount, full-time and part-time, male and female, and new entering student enrollments. Part 2 contains Fall 1994 enrollment reports by institution and are broken down by level of study, gender, and full-time or part-time attendance. Regular and extension enrollments are included separately. Part 3 contains full-year equivalent enrollment data presented for the 1993-94 academic year by on-campus, off-campus, extension, and summer session enrollments. Part 4 contains data on enrollment by place of Minnesota county of residence and system (state universities, community colleges, University of Minnesota, private career schools, private colleges and universities, and private graduate and professional schools). Residency by state or foreign country is also summarized by system for all students. Part 5 contains participation data presented by participation rates of 1994 state high school graduates for each institution; by distribution of Minnesota new entering students; by year of high school graduation for each institution from 1990 to 1994; and by each postsecondary system. INTRODUCTION

The Minnesota Higher Education Coordinating Board annually publishes reports on enrollments in Minnesota post-secondary education. Educational planners, policymakers, and the public use the data contained in this report for descriptive and research purposes.

This report was generated from the Coordinating Board's Student Enrollment Record Data Base, established in 1983. The Student Enrollment Record Data Base contains unit records for students enrolled during the fall in Minnesota's public and private post-secondary education institutions.

Starting in 1994, private career institutions that have distinct academic terms and the technical colleges were asked to provide tenth day fall data. In the past these institutions were asked to provide unit records for students enrolled during the three-month period, July 15 through October 15. Any private career institutions that do not have distinct academic terms will continue to provide data over the three-month period, as a proxy for tenth day data. All other institutions provide unit records for students enrolled on the tenth day of fall term. Tenth day enrollments do not necessarily reflect total enrollment. Some students may register after the tenth day of classes, while others may withdraw.

At the time of printing tenth day fall 1994 data was not available from technical colleges.

The report has the following five parts:

(1) Headcount Enrollments

Five-year enrollment summaries are presented for each post-secondary institution. Summarized enrollments include total headcount, full-time and part-time, male and female, and new entering student enrollments.

(2) Institution Enrollment Reports

Enrollment data are summarized by level of study, gender, and full-time or part-time attendance for each institution. Regular and extension enrollments are included separately.

(3) Full-Year Equivalent Enrollment

Full-year equivalent enrollments are presented for the 1993-94 academic year by on-campus, off-campus, extension, and 1993 summer session.

(4) Enrollment by Residence

County of residence for Minnesota new entering students is summarized for each system. Residency by state or foreign country is summarized by system for all students.

(5) Participation

Participation is presented in three ways:

- Participation rates of 1994 Minnesota high school graduates by gender are presented for each institution.
- The distribution of Minnesota new entering students by year of high school graduation is presented for each institution from 1990 to 1994.
- For each post-secondary system, ratios of new entering students who graduated from high school in 1994 are compared to all 1994 high school graduates for each county by planning region.

GLOSSARY

ACADEMIC YEAR - the period of time, typically from fall through spring, when institutions traditionally have conducted their instructional activity.

CREDIT-BASED INSTRUCTION - organized instruction that is part of a major program of study in the technical colleges.

EXTENSION - instructional credit courses or programs managed by an extension division or similar unit, that is separate from the regular instructional administration within an institution. (See REGULAR).

FIRST PROFESSIONAL - professional school or program which requires at least two academic years of college work for entrance and a total of at least six years for a degree. Examples include chiropractic, dentistry, law, medicine, and veterinary medicine.

FISCAL YEAR - the period from July 1 of one calendar year to June 30 of the next year.

FULL-TIME - registration for credit hours, course load, or other required activity amounting to at least 75 percent of the normal full-time load during an academic term.

FULL-YEAR EQUIVALENT - the result of dividing the normal full-time credit hour load for a student during an academic year at an institution into the total number of credit hours generated during a reporting period.

GRADUATE - a program of studies culminating in the attainment of a master's, specialist, or doctorate degree.

HEADCOUNT - the number of individuals enrolled at a post-secondary institution.

HOUR-BASED INSTRUCTION - organized instruction that is not part of a major program of study in the Technical College System.

NEW ENTERING STUDENT - a student who is enrolled at a post-secondary institution for the first time and who previously has not been enrolled at another post-secondary institution, except as a secondary student.

PART-TIME - registration for credit hours, course load, or other required activity amounting to less than 75 percent of the normal full-time load during an academic term.

REGULAR STUDENT - a student enrolled for credit in courses or other required activity offered through what the institution has established as its regular instructional administration. (See EXTENSION).

RESIDENCE - the place which the student identifies as his or her address at the time of application for admission to the post-secondary institution.

SECONDARY STUDENT - a student who is concurrently enrolled in high school and a post-secondary institution.

UNCLASSIFIED GRADUATE/PROFESSIONAL - a student enrolled for graduate credit whose status as a graduate or professional school student has not been specified.

UNCLASSIFIED UNDERGRADUATE - student enrolled for undergraduate credit whose specific class level cannot be specified.

UPPER DIVISION - undergraduate with a class level beyond sophomore but not specified as either junior or senior.

PART 1. FALL 1994 HEADCOUNT ENROLLMENT

Part 1 contains the following five-year summaries of total headcount enrollments for Minnesota post-secondary institutions:

- *Five-Year Summary of Total Headcount* presents the total number of individuals enrolled the tenth day of classes for fall terms 1990 through 1994. Up until fall 1993, technical colleges and private career schools reported headcount enrollment for the quarter ending October 15. Starting in fall 1994, all technical colleges and private career schools with distinct academic terms are reporting tenth day fall data. The percent change columns compare fall 1994 enrollment to fall 1990 and fall 1993.

- *Five-Year Summary of Full-Time and Part-Time Enrollment* presents the distribution of total headcount by enrollment status. The table also displays each institution's full-time/part-time ratios for 1990 and 1994. A full-time student is registered for credit hours, course load, or other required activity amounting to at least 75 percent of the normal full-time load during an academic term. Part-time students are registered for less than 75 percent of the normal full-time load.

- *Five-Year Summary of Male and Female Enrollment* presents the distribution of male and female students for each institution from 1990 through 1994. Students whose gender was not known are not tabulated.

- *Five-Year Summary of Total New Entering Students* presents total new entering students at each institution for fall 1990 through 1994. The percent change columns compare fall 1994 new entering student enrollments to fall 1990 and fall 1993.

Fall 1994 tenth day data from the technical colleges was not available at the time of printing. Not all private career schools report headcount annually, which creates some difficulties in historical comparisons.

PART 2. INSTITUTION ENROLLMENT REPORTS, FALL 1994

Institution Enrollment Reports summarize the number of students enrolled by level of study, gender, and full-time or part-time attendance at each institution.

Data on students who are reported as enrolling both as a regular and extension student are included in the *regular students* category.

Total new entering students for each institution appear at the bottom of each page. This total identifies any students listed in the preceding categories who are also new entering students.

Fall 1994 tenth day data from the technical colleges was not available at the time of printing.

PART 3. FULL-YEAR EQUIVALENT ENROLLMENT

This part includes full-year equivalent enrollments by student level for each institution, along with five-year summary data. The reporting period is the Fiscal Year 1994, which includes the 1993-94 academic year and the 1993 summer session. The data are obtained from public institution system offices and individual private institutions.

Full-year equivalent (FYE) is calculated by dividing the normal full-time credit hour load for a student during an academic year into the total number of credit hours generated during a reporting period. The normal full-time credit load at most institutions is 15 credits for undergraduate students, and 10 credits for graduate students per term.

Summary data may vary from earlier reports because some institutions have corrected errors in previously submitted FYE calculations.

The tables include:

- University of Minnesota regular instruction, summer session, and continuing education and extension programs FYE.
- State University System on-campus, off-campus, and summer session FYE. Off-campus enrollment is offered either through an extension or continuing education unit, except at Mankato State University.
- Community College System academic year and summer session FYE. The academic year FYE includes both on-campus and off-campus enrollments.
- Technical College System credit-based and hour-based FYE. The reporting of average daily membership enrollments has been discontinued and replaced with FYE. Fiscal Year 1994 data was not available at the time of printing.
- Private college and university on-campus FYE for the academic year. Summer session is not included.

Full-year equivalent enrollment data for private career schools are not available.

Fiscal Year 1994 Full-Year Equivalent Enrollment,
University of Minnesota, Regular Instruction

Institution	Undergraduate	Graduate	Professional	Total
Crookston	1,019			1,019
Duluth	6,252	297	214	6,763

PART 4. RESIDENCE REPORT BY SYSTEM

The Residence Report by System summarizes the residence of students by their post-secondary system of enrollment in fall 1994. The residence is the place the student resided at the time of admission at the post-secondary institution.

For each post-secondary system residency is tabulated in two different ways:

- *County of Residence* is presented for new entering students who are Minnesota residents, along with their full-time or part-time enrollment status and gender.

- *Students by Place of Residence* by level of study is presented for each system. For all new entering students, their full-time or part-time enrollment status and gender is also presented. Note: *Total Undergraduate Students* includes new entering students.

Fall 1994 tenth day data from the technical colleges was not available at the time of printing.

Residence reports for individual institutions may be obtained electronically or on paper by calling the Coordinating Board at (612) 296-9692.

PART 5. PARTICIPATION

Participation of high school graduates in post-secondary education is presented in three ways. These tables include only Minnesota residents who were new entering students in fall 1994.

- *Participation Rates of 1994 Minnesota High School Graduates* by gender are presented for each institution. The participation rate is derived by dividing the number of reported 1994 high school graduates enrolled in each institution by the total number of Minnesota 1994 high school graduates.* New entering students who did not report their year of high school graduation or gender are not included, therefore, the actual participation rate may be under represented.

- *Distribution of Minnesota New Entering Students by Year of High School Graduation* from 1990 through 1994 is presented for each institution. High school graduates from 1989 and earlier years are combined into one category. New entering students who did not report their year of high school graduation are not included.

- *Participation Ratios of New Entering Students Who Graduated from High School in 1994 to All 1994 Graduates* by county are calculated for each post-secondary system. Minnesota resident new entering students who graduated from high school in 1994 in each county are divided by the total number of high school graduates in 1994 from that county. (The method of calculating participation ratios has been changed from previous years when all new entering students were used regardless of the year they graduated from high school). New entering students who did not report their county of residence, gender, or year of high school graduation are not included.

  Participation ratios for individual institutions may be obtained electronically or on paper by calling the Coordinating Board at (612) 296-9692.

Fall 1994 tenth day data from the technical colleges was not available at the time of printing.

* The Minnesota State Department of Education provides the number of high school graduates by county.
